## NO VERDICT IN DYNAMITE CASE

(Continued from page 1.)

Indictment and not guilty upon others. You may find any defendant guilty or not guilty, or you may find one or more of them guilty and the others not guilty. Before you can find any of the defendants guilty you must be satisfied of his guilt in manner and form as charged in some one of the indictments upon which they are on trial, beyond a reasonable doubt.

**Eliminates Statement by Burns.**  
Of McManis and Edward Clark, of Cincinnati, both of whom pleaded guilty and testified for the government, the court said their testimony "should be received with caution and scrutiny with care," and added: "The witness, William J. Burns, while on the witness stand, detailed a conversation that he had with the defendant Hockin, in which he made statements to Hockin about the case of Tretinoe having been in prison and having a prison record. Such statements made by Burns are not to be considered by you in any way in determining the guilt or innocence of the defendant Tretinoe as to the charges in this indictment."

"Carefully weigh all the evidence in the case and from it under the rules of the law, which I have given you, determine the guilt or innocence of the defendants. With you, and not with the court, rests the responsibility of finding and determining the facts. The views of the court on questions of fact are not controlling upon you. You have nothing to do with the case except to determine the single question of the guilt or innocence of the defendants. If you should return a verdict of guilty, the measure of punishment to be inflicted upon the defendants is committed to the court."

The testimony of Burns about Tretinoe referred to by the court was that Burns had numerous conversations with Hockin shortly after the Los Angeles Times explosion and that Burns related to Hockin how he expected Tretinoe "would blow him up" because he (Burns) had obtained a photograph of Tretinoe in the garb of a Minnesota penitentiary prisoner and had published it in a San Francisco paper.

## PRINCE FUAD SEEKS THRONE OF ALBANIA

Uncle of Khedive of Egypt, at Head of Troops, Will Try to Force Himself into Power.

Paris, France, Dec. 27.—Prince Ahmed Fuad, an uncle of the khedive of Egypt, is preparing to enter Albania at the head of 25,000 troops and to proclaim himself prince of Albania, according to a correspondent of the Temps. The prince of origin of the dispatch is not given.

A correspondent states that prince Ahmed Fuad intends to disembark at the Albanian port of Avlona or some neighboring point on the coast. Prince Ahmed, who is of Albanian descent, recently exchanged visits with count von Berchtold, the Austro-Hungarian foreign minister in Vienna. He was at that time regarded as a serious candidate for the throne of Albania.

Small Kemal Bey, the Albanian leader, when asked whether prince Ahmed Fuad would be acceptable to the Albanians, declared that the question of selecting a head of the state would be decided in accordance with the wishes of the people, after the formation of a definite government. Prince Ahmed Fuad was later reported to be on the way to London to conduct a personal campaign in his own behalf.

## PROMOTERS HELD BY U. S. OFFICERS

Men Who Promoted Teletype and Other Stocks Are Arrested on Charge of Misuse of Mail.

New York, N. Y., Dec. 27.—Under indictments just returned by the federal grand jury, the postoffice inspectors at the offices of the Sterling Debenture company, 33 East Sixteenth street, and at their broker's office, 22 William street, arrested six of the officials.

The government, through chief inspector Dixon, charges the company with using the mails to defraud. It is charged that they have secured \$15,000,000 from industrial companies whose bonds they agreed to exploit, and then failed to do so.

The men under arrest are Frank Shumaker, formerly president; Samuel E. Windley, Harry W. Platt, Samuel Rosenblum, of 22 William street, Elwyn A. Barron and Wilbur M. Stone, of 13 Park place.

The indictments are against Benjamin C. Mudge and Frank E. Winchell, of the Oxford Linen company of North Brookville, Mass., and George H. Middlebrook, of Chicago. The last three were expected to be placed under arrest this afternoon.

The indictments only run against the Sterling Debenture company, but also against the Oxford Linen company, a subsidiary company of North Brookville, Mass.

Among the well known enterprises which the Sterling Debenture company promoted or promised to promote, was the Teletype company, which was placed in financial difficulties a year ago.

The postoffice inspectors say that the commission which the company received in a single year as its reward for creating and promoting well known companies, was between \$2,000,000 and \$3,000,000.

The raid marks the climax to one of the biggest fakes ever nipped by the postoffice department in the history of the government, said inspector Dixon. The government inspectors and United States district attorney Wise's office have been working on the case for nearly a year, gathering evidence.

The raid made two weeks ago upon the offices of the American Redemption company in this city was a preliminary to the action taken today, although two concerns are not thought to have been related.

By 1 o'clock this afternoon 20 votes had been polled in precinct No. 1. That precinct, it was stated, had the largest vote up to that time. The votes cast there, it was stated, were all in favor of the issuance of the bonds.

By noon Friday only seven votes had been cast in precinct No. 11. Reports from the other city precincts were to the effect that the voting at all was light.
